

A New Era of Video Conferencing

CTL Meet Compute System GQE20C

This compact, high performance Google Meet device delivers seamless video conference experiences with fast and easy setup, reliable connectivity, and advanced meeting technology performance.

Google Meet

Designed, built, and tested for Google Meet

Created with enterprise grade reliability and security in mind.

- Next generation Intel i5-1335U processor with 16 GB RAM and 256 GB SSD
- Automatic updates through September 2030
- Enterprise-grade manufacturing with rigorous testing
- Designed sustainably, using 75% post-consumer recycled plastics and eco-friendly packaging
- On-device encryption and verified boot self-check

Driving Logitech® Room Solutions

Quickly and easily transform any meeting room into a Google Meet video collaboration space.

- Superior face-to-face meeting experience with studio quality video and sound
- Simple process to join, manage, and document important meetings
- AI-enhanced systems turn small, medium, or large rooms into collaborative teamwork spaces
- Certified and curated components combine to create affordable and headache-free video conferencing

Space-saving design, easy installation

With a slim body and ample I/O options, this commute system delivers powerful performance.

- Single-side ports for easy cable access and management
- Upright desktop design option
- Slimmer, modern design with VESA-compatible or magnetic mounting options
- Extended device lifespan and support for prolonged use
- Features two HDMI ports to support dual displays

Compact. Powerful. Scalable.

A durable, reliable, and secure device that provides tailored, end-to-end meeting solutions for education and corporate customers.

Small and secure

Slim design with easy installation via magnet or VESA mount.

Strong and safe

Manufactured and tested for enterprise-grade durability.

Support that lasts

Built-In Google H1 Security with automatic updates through September 2030.

Sustainably designed

Eco-friendly, FSC-certified packaging and 75% post-consumer recycled plastics.

Better, faster, stronger

Intel i5-1335U CPU with 16 GB of RAM, 256 GB of storage, and ultra-fast bootup.

Stands on its own

Includes upright desktop stand option.

Get connected easily

Easy cord access and management with single-side ports, including two HDMI connections for dual displays.
